# Spicy, Aromatic And Tangy

Onions form the fourth most important commercial crop in India and the country is the second largest onion growing country in the world. Indian onions are famous for their pungency and strong aroma and are available round the year. Indian onions has two crop cycles, first harvesting starts in November to January and the second harvesting from January to May.

Maharashtra is a leading state in onion production. Out of total annual production of about 60 lakh tonnes of country, about 16 lakh tonnes are produced in Maharashtra alone. Despite a high domestic demand this vegetable enjoys a good export market as well.

# Packaging

Packing size wholly depends on the importing country requirement. Generally Netted polybags or jute bags are used. Packing sizes can be 5 kg, 10 kg, 15 kg, 20 kg, 25 kg, 50 kg. If a pallet net weight is 1300kg,

- 25kgs- 52 bags per pallet
- 50kgs- 26 bags per pallet
- 10 Pallets per 20 Feet Container
- 20 Pallets per 40 Feet Container

## Size of Onion Required by Different Countries.

- Malaysia, Singapore, Port Kelang & African Ports : 25-30mm
- Sri Lanka : 25-30mm and 45-60mm
- Bangladesh, Pakistan & Nepal : 25-30mm
- Middle East & Gulf : 40-60mm
- Europe & Japan : 60-70mm

## Good Packaging for Onions Must Meet The Following Criteria:

- Strong enough to retain the required weight of onions under the conditions of transport and storage,
- Allow sufficient ventilation for the air around the bulbs to maintain relative humidity in the required range, and
- In many circumstances, provide a means of displaying legally required and commercially necessary information

We can customize or change the properties along with packing & shipping preferences on customer needs & Order basis. All our export consignments are subjected Export Inspection Agency Certifications before being shipped out of India.
